

## Apex roof line

Check out our beautiful selection of wooden log cabins at Woodpro. We have over 40 years of experience in creating high-quality wooden structures. All log cabins are delivered as ready-to-assemble kits, ensuring you can easily create your ideal space.

*The standard package includes:*

- ✓ Free delivery to the UK mainland
- ✓ Pressure treated foundation beams
- ✓ 18mm T&G roof and floor boards, with pressure-treated floor bearers
- ✓ All fixings, construction manual and window/door hardware
- ✓ 5 years warranty

Woodpro uses **first-class spruce**, sourced from northern countries. This high-quality, **kiln-dried wood (14 – 16%)** ensures durability and structural integrity. The cabins feature **robust 9 x 9 cm laminated posts** with **boiler pressure-impregnated bases** and a stylish apex roof that has a **300 mm overhang** and a subtle **11-degree angle**. The models with a canopy feature a 5-degree roof angle.

All windows and doors come with **double glazing** as standard. These are made of laminated (against warping) and knot-free wood. The **door handles** are spring-loaded and finished in chrome.

The **floor** is made of **18 mm thick boards**, finished with decorative baseboards.

The spruce remains untreated, offering you the freedom to customize the finish according to your personal taste.

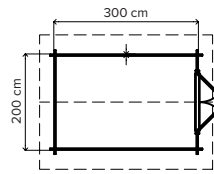

**Black shingles and underfelt** are available as an optional add-on to further protect your log cabin.

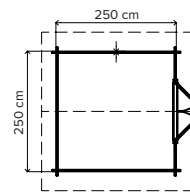

Unlock great value with our **apex roof log cabins**. Choose from nine standard sizes. Want extra durability? Opt for shingles roofing to keep your cabin protected year-round. The log cabins with canopy can also be delivered in a mirrored layout.

### 3x2m Log cabin with apex roof

Ridge height	249 cm
